> The writer of the letter, Ida Belle White, a woman who has lived for twenty-five years in Kansas and is well known there, claims that she has been inspirted in her work by the spirit of Samuel L. She claims there are numbers of reliable persons of her city and state who will bear her out in her statement of hear-ing the spirit of Mark Twain speaking to her and giving her instruction and encouragement.

THINK SLOMAN WILL **GIVE MEREDITH RACE**

California is boasting of the elever-est quarter-miler since Ted Meredith flashed to the front as a contender for Olympic honors more than three years

Frank Sloman is his name, and he is possibly the one of three runners of the world today, besides Meredith, who can better forty-nine seconds consistently. Sloman is the runner with whom Meredith must reckon in the national quarter mile championships at Newark New Jersey, next summer. Ted knows this now, and depend upon it he will be as fit as ever in his life when he shows up for the national 440 dash. Sloman was undefeated until he umped into Meredith at the Panama-

Pacific games last August, and the beating that Ted handed to the fleet "native son" has rankled Sloman ever since, and so much so that he yearns for revenge on the Pennsylvanian. Sloman will, of course, be a member of the big Pacific coast team that will ome East to compete at Newark, and it is on this occasion that Sloman hopes to reverse the decision that Mercelith obtained over him on the Exposition track at San Francisco.

The danger to Mcredth in meeting loman next year lies in the possible when requested either to confirm or improvement that the Pacific coast lad deny the reported change, said he did not know anything about it. He said that he would consider such a proposi tional championship a San Francisco, Sloman was not quite dangerous enough to warrant the prediction of a possible reversal when they meet again next summer. I by anyone about taking hold of the and it is only natural to suppose that he will be much better next summer. this improvement will have the task of his career on his hands to defeat the phenomenal Pacific coast athlete.
